Available Guidance

Current CAA position

Available Guidance

[EASA CM-S-008](#)

[FAA Memo AIR100-16-130GM18](#)

Available Guidance cont.

Highlights:

- AM processes are treated as 'special processes'
- Is considered a scope change for both DOs and POs

Current CAA position

- Willing to look at one-off AM parts design changes but not ready to engage in 146 or 148 scope changes
- Advise to engage CAA in early on when looking at using AM, even if design change appears to be 'minor' classification

Questions
