Temporary Restricted Areas – Eastern North Island Effective: Via NOTAM

Pilots are advised that three temporary restricted areas are designated within uncontrolled airspace throughout the eastern North Island to facilitate rescue and recovery operations.

This is in addition to temporary restricted areas currently covering all CTR and CTA controlled airspace around Gisborne and Napier aerodromes.

Refer to current up to date NOTAMs for conditions of use on the temporary restricted airspace, and for any up-to-date changes.

The graphic below provides context for pilots considering operations throughout the eastern North Island.

Designated pursuant to civil aviation rule part 71 under a delegated authority issued by the director of civil aviation
